Sarens SPMTs and CC-3800 Crane Deliver on Successful Short-Term Rental Project in Australia

Sarens is proud to help our clients worldwide get big things done, and when it comes to short-term rentals, we are the reference in our industry. Recently, a client contacted our Australian team to secure equipment for an operation that involved transporting 193-tonne precast beams from storage via SPMTs, and then lifting them into place.

Sarens Expertly Installs Two Massive Steel Bridges in Duisburg, Germany

For bridge installations that demand flawless and safe execution, clients trust Sarens' years of industry-tested wisdom and innovative engineering leadership. That is why client Max Bögl asked Sarens to carefully install two vital bridges in the city of Duisburg: the Oberbürgermeister Karl Lehr Brücke (OBKL) over the Ruhr river, and the Hafenkilbrücke spanning the canal that leads to the port of Duisburg.

Sarens Performs Precision Replacements for TCO Turnaround Project in Kazakhstan

The TCO plant in Tengiz, Atyrau, Kazakhstan, recently contracted Sarens to help with turnaround works at the facility. Sarens in Kazakhstan successfully completed all critical work for the turnaround project, including replacing a D-503.2 column, which weighed 112 tonnes, and three reactors (R-720, R-721, and R-725) weighing 56 tonnes each. Sarens also designed and supported a variety of lifting works for the project, including the installation of transformers and the replacement of hard-to-reach pipelines.

SARENS WOMEN+ - ISSUE VII OUT NOW

We are back. With more. More questioning. More arguments. More ideas. More scepticism. More freedom. More equality. More feminism. Unapologetic as always, we bring to the surface the subjects that many dread to discuss. Join us in finding out more about the waves of feminism and how feminism is seen and understood around the world.
