## From Unclassified Rivers to Soviet-Era Jetties, Sarens Always Finds a Way Forward

What do you do when you have to transport over 100 pieces of equipment 330 kilometres down one of Europe's last wild rivers? Poland's longest river, the Vistula, is considered "wild" because for at least some portions of its course, no classification can be granted: that is, there is no guarantee of a minimum draft for sailing. This can be a problem when you must load a barge with critical, 1,000-tonne project components and sail it from Gdansk to Plock, 330 kilometres away.

## Sarens Offloads and Installs 67 Vestas Wind Turbines for Canadian Wind Farm Project

As the global wind industry continues to grow, Sarens is at the forefront of the energy transition, lifting and installing massive wind turbines on both land and water. Sarens was recently selected to offload and install several wind turbines for the new Sharp Hills Wind Farm project in Alberta, Canada, on behalf of Borea Construction and project owner EDP Renewables.

## Sarens boosts infrastructure development in Ghent with construction of new tilting bridge

Sarens was asked to assist in the construction of the new Wijnegem bridge. The new Wijnegem bridge will contribute to improve the road connection for pedestrians and cyclists. The main purpose of the project was to replace an older structure, thus ensuring a safer and more efficient infrastructure.

## Sarens Expands Its Reach in Estonia: A Growing Market for Crane Services

Sarens, a global leader in heavy lifting and engineered transport, has been making its mark in Estonia since 2020, setting its sights on a nation with a promising economic landscape and burgeoning construction sector. As the company establishes its presence in the Baltic nation, it brings with it a fleet of hydraulics boom all-terrain cranes ranging from 55 to 100 tons, ready to cater to a variety of lifting needs across different industries. To further server clients, with larger cranes up to 500T lifting capacity, Sarens also has the support of our well-established branch Sarens Balticum in Lithuania.
